EQUALIZERS IN SESSION

The Board Takes Action on Railroad Valuations.

Yesterday afternoon the Governor, Attorney-General and State Controller met at the Governor's office to take action on the reduction of the railroad assessments made in the counties of Ormsby, Washoe and Storey, says the Appeal.

In the three counties named the V. & T. valuation was fixed by the State Board of Assessors, at their annual meeting at \$10,000 a mile for the main track, and \$2,500 a mile for the side track.

The N-C-O was fixed at \$3,000 per mile for the main track and \$2,000 for the side track. The revenue law passed by the last legislature only gave county boards of equalization power to equalize such property as had not been passed upon by the State Board of Assessors.

In discussing the matter at the meeting yesterday it was the unanimous opinion of the Board that the law had been violated by the County Boards of Equalization in the counties named and that it was the duty of the district attorneys of the several counties to sue the road and recover the difference.

The reduction on the V. & T. was from \$10,000 to \$5,000 on the main track, and from \$2,500 to \$2,000 on the side track.

The N-C-O was reduced from \$3,000 to \$2,000 on the main line and from \$1,500 to \$500 on the side track.

The Attorney-General held that as the assessors made the assessment, it became a lien on the property and suit could be brought for delinquency. On motion of the State Controller it was decided to collect the debt and lay the matter before the State Board of Assessors, which will convene here on the 14th of January.

OPPORTUNITIES UNIMPROVED

Comstockers Not Taking Advantage of the University Extension Course

The young men of the Comstock should avail themselves of the opportunity to obtain diplomas as mining engineers by joining the University Extension Class, the practical results of which have been demonstrated by several of the graduates obtaining employment in civil engineering after a course of study covering less than eighteen months, four of the graduates now being in the field in Esmeralda county and in the receipt of lucrative salaries from the Holmes mining company, says the Report.

In any other community of this size there would be no difficulty in organizing large classes of students who would be glad to avail themselves of the chance to obtain a university education without interfering with their daily labor, and the cost of which entails an assessment of less than \$5 a month for rent of class room, lights and other necessary expenses with a class of only ten students, and this monthly outlay would be reduced to \$2.50 per month for each student when the class number twenty.

Unless more interest is taken in the prize-worthy efforts of the University faculty in its extension work, it is probable that the project of forming another local class will be abandoned.

CHANGES IN THE S. P. LINE

RENO WILL BE BENEFITTED

Millions of Dollars to Be Expended in Improvements.

Reno has many reasons to feel kindly toward the Southern Pacific Company. That corporation is showering its favors upon the town. Of course it is not being done in the spirit of pure benevolence, but as a business proposition. However, that does not in the least take from the benefits that Reno is deriving and will derive.

In the first place the Reno division was created and E. H. Prentice, a most capable and far seeing man, appointed freight and passenger agent, with headquarters here. He is earnestly striving to benefit the community and the road. He has inaugurated many changes that help the town. One of these is the establishment of a new schedule of rates to Reno and return from outlying towns. He has also become a purchasing agent for the road. The diners now draw considerable of their supplies from this point.

Lately the road has been purchasing brick from the local yards for the construction work that is and will be taking place. This is an item of no little importance.

Mr. Prentice is also arranging for low rates from Wadsworth, Truckee and intervening points on theatre nights, with a day's stop over privilege.

These are only a few of the benefits already gained, but each is bringing the dollars into the town.

Now, as to the benefits in future. It is a delicate and difficult subject to handle, because The Journal sincerely regrets the injury that another town will suffer for Reno's welfare. Certain facts have been in the possession of this paper for many months, but they were not given full publicity, because of the depreciation in property prices that might result in the sister town from their publicity. But now there is no reason for keeping silent. The railroad people have definitely decided upon their plan of work and will make all haste to carry out the projects. What they will do will entail the expenditure of millions. Their line will be straightened and the grades minimized. Heavy steel will be laid upon a well ballasted track and the roadbed of the Southern Pacific across Nevada will be a model one.

The eastern end of Washoe county will suffer while Reno will be a heavy gainer. The old line, that curves around the base of the Truckee meadow hills, will be superseded by a bee line route to the head of the canyon below town. The new track through the canyon will cross the river several times and take the bench on the south bank. Wadsworth will be left two miles to the north. The new line will join the old one at Brown's station.

There is no reason for believing that Wadsworth will be "wiped off the face of the earth." The old line of track through that town will not be torn up as soon as the new track is laid, nor will the shops be moved at once. It will require years to make the complete change and Wadsworth is not in immediate danger of having its chief source of revenue entirely removed.

Of course, a large round house will be erected in Reno without delay and many of the trains will be run over the new grade as soon as completed. It is a huge undertaking that the Southern Pacific has entered upon and one that will be years in consummating.

Reno will be benefitted at once by this change. In a few weeks the graders will begin work upon the cut-off across the meadows and workmen will be put on the construction of railroad buildings. Later the trainmen, and in time the shopmen, will come here and the population of Reno will then well top ten thousand souls.

TELEGRAPHIC BREVITIES

News of the Day Presented in Brief Form for Perusal by Busy Readers.

The Chili-Argentine boundary question is still unsettled.

Japan has begun the erection of wireless telegraph stations along the Korean coast.

A fire at Calvert, Texas, yesterday destroyed \$150,000 worth of property and caused the death of two men.

A wind storm of unusual force and destructiveness raged yesterday all over the southern part of California.

General R. A. Alger passed another excellent night and is in a most satisfactory condition today, according to his physician.

John M. A. Leishman, the United States Minister to Turkey, arrived at Constantinople today on his return from a visit to America.

Michael West, engineer on the Norfolk and Western, was shot to death by Policeman William Freeman at Ceredo, W. Va. West was resisting arrest.

Chief Wilkie of the Secret Service, has issued a circular stating that a counterfeit gold certificate is in circulation. He says it is an untitled photograph and would not deceive any one who is accustomed to handling money.

General Grodekoff reports that a Tungus Chief, with thirty-six men, surrendered at Bajansusa, Eastern Manchuria, December 15th. Other bands on refusing to surrender were attacked by the Russians and forty-one of the natives were killed. Three Russians were killed during the fighting.

The gathering of German warships in the vicinity of Venezuela, and the presence in the same locality of many American, British, French and other foreign warships is directing attention to the imminence of the naval demonstration Germany is about to make against Venezuela.

The grimdest story of marine disaster in all the history of the North Pacific is expected by local marine men from Chatham bay tomorrow. The fate of nine vessels, caught by the Christmas storm in that body of water, which lies like a trap right in the path of the southwest gale, is not known.

The announcement of King Edward's intention to open Parliament in will state and the introduction from the Lord Chamberlain that the peruses will not be expected to wear mourning on that occasion ensures a brilliant pageant January 16th, and the commencement of a period of festivity and costly entertainments from then on until the climax is reached in the coronation ceremony in June.

In San Francisco the other day Manager Kruttschnitt, speaking of the reconstruction work which will begin soon on the Central Pacific, said that it is the present plan of the company to begin at Reno and work eastward until the entire work is completed. These construction plans embrace eighteen different pieces of work. The building of a cut-off from Lucin to Ogden for the shortening of the line and the cutting down of grades is embraced in the general scheme of improvement.

TALKING UP HIS STATE

A Nevadan Abroad Tells of the Flourishing Times Here.

The Woodland, Cal., Democrat says: J. W. Freeman, of Stillwater, Nevada, was an arrival Saturday evening. He says that Nevada will be herself again. The S. P. folks are expending large sums of money in straightening and equalizing the grades, and new mines have been opened. The Tonopah district bids fair to be Comstock No. 2. It was discovered in May. At this time there are 1,700 people in the camp. The mines are easy of access and yield fabulously. A large milling or reduction plant is going up, so that ores will not have to be shipped to Salt Lake, and lower grade ores can be worked.

Sheep are bringing good prices, and ranges are in fair condition. Twelve years ago Nevada had about 100,000 sheep. Now she has about 1,000,000. Cattle are doing well and large quantities are being fed for eastern and California markets. Good prices and demand have stimulated the growing of horses and mules.

This is a brief summary of the sagebrush state's recent record, but it shows that Nevada is entitled to another nickname. Mr. Freeman confidently asserts that the outlook for the state's material prosperity is very bright.

Mrs. Herbert Nicholls Claimed by Death.

It is with the deepest regret that we announce the death of Mrs. Herbert Nicholls, nee Miss Edith Nicholls, who passed to the great beyond yesterday morning at seven o'clock, after a lingering illness of several weeks.

She was a graduate of the Nevada State Normal School, having graduated in the class of '96.

She was dearly beloved by all, for to know her was to love her, for her noble traits of character and her beautiful life.

She leaves a husband, a widowed mother, a brother and several sisters to mourn her untimely death, besides a host of friends in Nevada and in California.

The funeral will take place Monday at 2 o'clock.

Mrs. Nicholls was aged 27 years and 6 months.

Chance for a "Spec."

With the splendid outlook that Reno has there is no reason why it would not be a good speculation for some one owning a few acres of land at the edge of town to buy up all the vacant buildings on the Comstock and erect a little suburb to the town. \$50,000 put in an investment of this sort would undoubtedly be a fine paying investment.

Organized a Company.

R. R. Arnold and J. R. Downey have returned from Cripple Creek, where they went to organize a mining company to work properties in the Wadsworth district.

JOHN H. DENNIS, Editor

IS SCHLEY VINDICATED.

"HIS conduct during the battle of July 3d, was self possessed, and he encouraged in his own person, his subordinate officers and men to fight courageously."

This is the opinion of the court of inquiry. Schley remained silent under all of the attacks of the Sampson press and clique but demanded a court of inquiry when "Historian" Maclay in a book approved by navy officials and adopted as a text book in the naval training school, charged him with cowardice. This charge was so manifestly false that the Judge Advocate abandoned it in his summing up. That was the least he could do. He is alive today, only because of Schley's heroism in an undertaking when there was no chance for glory. The court formally acquits him of that charge, and approves his personal conduct.

But the main question before the people has been, who was really in charge at the Santiago battle? To whom does the honor belong? Admiral Dewey says that Schley was in absolute command and is entitled to the credit due to the commanding officer for the glorious victory. Dewey is at the head of the American navy, the hero of Manila and there is not an officer in the service more competent than he to pass upon the vital questions involved in the inquiry. He is a fighter and knows a fighter, and his opinion is that Schley is entitled to the honors of the victory. Dewey does not enter into a controversy with his associates, none of whom had seen important service on modern naval vessels in an engagement, and had never commanded a squadron or a fleet in important maneuvers. Of the minor matters brought in by the department clique, he says nothing, merely signing perfunctorially the report as president of the board.

The three great fighters of the Spanish war were Dewey, Schley and Clark. There exists between them the sympathy that might be expected among men who had accomplished great things. Dewey comes gallantly to the support of the hero of Santiago, and Clark's testimony before the court was a manly tribute that showed his admiration for his commander.

Schley's friends will not be satisfied with the verdict, which condemns him on some minor points and makes some severe reflections, but on the essential matters he has received ample and honest vindication. Any action now taken by his friends will merely be to secure for him the fruits, as he has already secured the honors of the victory.

JUDGE C. J. HILLYER'S COMMUNICATION.

THE attention of our Nevada readers is directed to the communication from Hon. C. J. Hillyer on the third page, taken from the Washington Post. The correspondent puts some pertinent questions to Senators Jones and Stewart, for which we opine they will find it difficult to furnish replies that will prove satisfactory to a large majority of their constituents. Judge Hillyer is one of the leading lawyers in Washington and was the leading member of the bar in Storey county in the early days of Nevada's Statehood, when and where the brightest legal talent of the coast was congregated. He has always been a true friend of Nevada and his communication will be read with more than ordinary interest, and especially by all who knew him in the early days of the Comstock.

OKLAHOMA and the Indian Territory will probably come into the Union at the present session of Congress. If as one State it will be one of the finest in the radiant sisterhood. It will come in with four or five representatives in Congress, the largest number that any State ever started in with except Maine, which began with seven but has fallen off to four. Maine and Missouri came in together, the former with seven and the latter with one. Now Missouri has sixteen and Maine one-fourth that number. Moral: Missouri is Democratic and Maine, Republican.

EVEN if free trade is in the interest of the foreign seller, would it be any worse than a protective tariff in the interest of the foreign buyer? We say "protective" tariff, as that is the general term, although the present one might more properly be called "prohibitive." There is probably not to exceed one free trader to every thousand voters in the United States and there is no good reason why advocates of a high tariff should exceed that ratio, for one is as radical and dangerous an extremist as the other.

THE Carson News thinks that Schley is entitled to no credit because he is a "paid fighter" and fighting is his business. Well if that is so, he is at least entitled to some credit for earning his money—which is more than can be said of some of the naval clique who have been slandering him.

AT last accounts, action on the appointment of Attorney General Knox had not been acted upon by the Senate. The answer to one question ought to settle the matter of his confirmation. Is he in

sympathy with the anti-trust law? If he is, confirm him. If not, confound him.

THE Lincoln County Record, although a Republican paper, in striking contrast to some of its party contemporaries in the State, is broad minded enough to set aside political prejudice in matters effecting the interests and honor of our commonwealth. It says:

"Some of the papers of the State are belittling the appointment of Congressman Newlands to the Ways and Means Committee on account of his being in the minority, and it was a kind of left-handed compliment. Irrespective of what Mr. Newlands' politics are, the fact remains that it is an honor to have a representative of the 'Rotten Borough' appointed on the most important committee of Congress, not alone to himself, but to the State of Nevada. Give credit where credit is due."

THE experts have figured out that there will be no change in the tariff schedule and no reciprocity treaties ratified by the present Congress, and the great trusts and other "infant" protected interests are as happy as the proverbial clam—and why shouldn't they be?

SENATOR STEWART dined at the White House the other day. That ought to stifle all criticism concerning the Booker T. Washington feed.

SOLOMON had the largest family on record. But the Christmas tree had not been invented when Solomon was doing business.

OUR SENATORS QUERIED IN WASHINGTON POST

Questions Propounded as to Their Desertion of the Cause of Bimetallism.

Editor Post: For the seventeen years before becoming a resident of Washington I was a citizen of the State of Nevada. I there passed the most active portion of my life, and still claim to be identified with its citizens, than whom—though relatively few in number—I have met none elsewhere more entitled to respect for intelligence, enterprise and morality. I, therefore, feel authorized to interpose respectfully concerning political questions the conduct of those who now represent that State in the Senate of the United States.

I understand—because it is so published and not denied—that both these Senators have reaffiliated with the Republican party, and in doing so have both declared as their reason or excuse that they considered bimetallism or the restoration of silver no longer a living issue.

I wish from these Senators answers to a few questions, and that their answers shall be made from their places in the Senate chamber. I wish that the reasons for their recantation shall be given the same publicity with which their previous professions were made.

First—Do you consider that the arguments for bimetallism which you have been making for many years were unsound?

Second—If not, what sufficient reason has occurred since that period to justify a change of your convictions?

Third—If you say that within the past few years the large returns from old mining have so far increased the volume of standard money as to make silver restoration unnecessary, I ask you to look over your own speeches and see how often and how emphatically you have stated, and how clearly you have demonstrated, that all mining for precious metals, and especially for gold, is precarious, and not a few years, but long periods, must be taken into account in estimating the average or probable metallic supply, and that the nearest approach to stability in any metallic standard must be found in bimetallism.

Fourth—Have you not often stated, and is it not clear, that the principal significance of a money standard consists in the existence of an immense

indebtedness, which must be discharged in standard money, or that which must be maintained as its equivalent?

Fifth—Assuming that you still recognize this truth is it not a fact that in this country and almost universally elsewhere, indebtedness—national, municipal, corporate and individual—is greater today than at any time since the question as to a money standard has been agitated in the United States? And is it not also true that most of this indebtedness was created and the foundation of all of it laid under a bimetallic standard, at the ratio of 16 to 1 or 15 to 1?

Sixth—Is it not true that this immense indebtedness, amounting in the United States alone to more than \$17,000,000,000 of longtime interest-bearing obligations, must be discharged by property and labor, will be nearly twice as heavy under a single gold standard as under a bimetallic standard of silver and gold at the present ratio?

Seventh—Does the fact that under a nominal gold standard in the United States the coinage of silver has been continued and the volume of representative paper money increased, and thereby prices stimulated, offer any guarantee against such currency contraction as the law now places in the power of the holder of money obligations, and by which property values and labor prices may be so reduced as to create the calamitous condition which you have so often depicted as the result of a gold standard?

Eighth—Is not the interest of you constituents in this question practically the same as it has been for the past twenty years, and as it was when you were chosen Senators upon a free silver platform?

I think it proper to say, in reference to these interrogations, that my personal relations with both of these Senators are friendly, and I hope will continue to be so, but, politically, they have placed myself, and I am sure many of their present constituents in an embarrassing situation. We must either part company with our Senators or we must repudiate everything which for twenty years they have taught us to believe, and which most of us, at least, still believe.

C. G. HILLYER.

A WOMAN'S AWFUL PERIL.

"There is only one chance to save your life and that is through an operation," were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, liver and kidney remedy. Cures Dyspepsia, Loss of Appetite, Bile, etc. Only 50 cts. Guaranteed. For sale by S. J. Hodgkinson.

SAW DEATH NEAR.

"It often made my heart ache," writes L. C. Overstreet, of Elgin, Tenn., "to hear my wife cough until it seemed her weak and sore lungs would collapse. Good doctors said she was so far gone with Consumption that no medicine or earthly help could save her, but a friend recommended Dr. King's New Discovery and persistent use of this excellent medicine saved her life." It's absolutely guaranteed for Coughs, Colds, Bronchitis, Asthma, and all Throat and Lung diseases. 50c and \$1.00 at S. J. Hodgkinson's. Trial bottles free.

SAYS HE WAS TORTURED.

"I suffered such pain from corns I could hardly walk," writes H. Robinson, Hillsborough, Ills., "but Bucklen's Arnica Salve completely cured them." Acts like magic on sprains, bruises, cuts, sores, scalds, burns, boils, ulcers. Perfect healer of skin diseases and piles. Cure guaranteed by S. J. Hodgkinson for 25c.

FOOD CHANGED TO POISON.

Putrefying food in the intestines produces effects like those of arsenic, but Dr. King's New Life Pills expel the poisons from clogged bowels, gently, easily but surely, curing Constipation, Biliousness, Sick Headache, Nerves, all Liver, Kidney and Bowel troubles. Only 25c at S. J. Hodgkinson's.

NOW IS THE TIME

To get in on the ground floor. A limited number of shares in the capital stock of the Hesperian Grade Oil Company will be sold in Reno for one-fourth of par value.

The first well is being sunk and the chances are almost conclusive of getting oil. This is the first oil well in Nevada. The general manager of the Company, A. Love, will call upon you in a few days.

The new oil field is located in Elko county, where are found immense beds of shale carrying more or less paraffine oil.

The fossil line, which is there in large bodies, contains the same fossils of marine life and has the same smell of gas as has the line that is found in the Pennsylvania oil fields.

PIANOS ON EASY TERMS.
And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten-dollar monthly installments.

These pianos are all fully guaranteed and have the latest (improved) action and are the style upright. No one on earth sells better pianos or better-toned pianos, or gives more value for the money than C. J. Brookins. Brookins has lived and sold pianos in Reno for thirty years. Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia street, C. J. Brookins' store. 11

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences. Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them. If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds and bronchial affections by the regular use of Dr. Boschee's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store. Get Green's Special Almanac.

SEEDS! SEEDS!

In order to facilitate the delivery of seeds, Mr. Newlands requests all those desiring a quota of seeds next spring, to send in their applications at the present time, thus assuring an after delivery than would otherwise be possible. Address all applications to Francis G. Newlands, House of Representatives, Washington, D. C.

MINING IN THIS STATE

Culled News of Nevada's Most Important Industry.

Tonopah has one fire-proof building in course of construction.

S. M. Summerfield has a force of men working on the Mascot mine in Hawthorne district. This mine is owned by the Hawthorne Gold Mining Company of Boston.

A flat car freighted with the Davilex drilling machine and apparatus was attached to the V. & T. local train last evening. The machinery included a boiler on wheels and a large amount of pipe and drill stems in sections, the boring apparatus and engine for driving it, also a derrick for lowering and raising the drill.

Nearly every paper chronicles the return of some Nevada man from foreign clods. The slack work at Butte City has sent a number of the wanderers home and the trouble in South Africa has added to the return movement Nevada is a great place, they all declare when they return, and it only takes a little mining excitement to do the work.—Carson Appeal.

Splendidly Decorated

The Reno Wheelmen are busy at it. They are transforming the precious gymnasium into a bower of beauty in preparation for their annual all, which will be given New Year's eve.

The walls and ceiling are hidden by aunting of club colors and greenery. Large mirrors upon the walls reflect the myriad lights and the brilliant display of colors. Scores of Japanese lanterns are everywhere displayed. Two large boxes of ferns have arrived and are being added to the decorations. Mistletoe will be interwoven in the ropes of evergreen that recross the hall. This latter carries a cover warning. What if some bold escor should salute his lady? He can please an old custom. A few tickets more will be sold. Secure yours in time.

The Devil's Auction. Old, but Ever New.

Statuesque Madge Torrance has been engaged by Manager Chas. H. Yale to play the part Carlos in the 20th edition of "The Everlasting Devil's Auction."

Miss Torrance is a stately blonde of the English type who is in direct contrast to Miss Lillian Herndon, a dashing brunette, and the Countess Fortunio of the play. Further contrast can be found in the Titian haired Miss Victoria Valthers, the American beauty, Miss Alice Stoddard or the dainty Parisian type of Miss Berna DeVoe. In fact, in conjunction with the principal dancers, seconds coryphees and ballerinas who represent almost every nationality from all parts of the globe, it is safe to say that the 20th edition of the Devil's Auction has established a congress of beauty in more ways than one.

No Carnage, but Indications of It.

The appearance of the sidewalk in front of the Cann Drug Company's store yesterday morning indicated that a tragedy had been committed there. There was gore galore.

It happened that an overloaded individual fell down and bumped his nose. Not content, he arose and fell down again. When the officers found him he was too weak from loss of blood to make a third attempt to squish his nasal appendage.
